

Meet our Wellbeing Dogs

Mack

Mack is an Australian labradoodle. He is hypoallergenic and does not shed his fur. This is great for people with allergies but it does mean that he develops 'rock star' looks when his coat grows too long. He loves chasing after a ball of any shape and size and (generally) brings them back to the thrower. He lives with a gentle old cat, Robbie, who makes sure that Mack always displays Virtue, Learning and Manners whilst in his company.

Bea

Bea, short for Beatrix, is a working cocker spaniel with boundless energy. She is very obedient and will sit and wait when told - even when food is involved. She lives with Arwen, the McConnaughie family cat, who keeps Bea in check. Running in woods and fields are Bea's favourite pastimes but she also enjoys a good movie curled up on the settee.

Ralph

Ralph is a Black Labrador. Aged 3, he is the youngest of our team but has known the Prep School his whole life. He is a breed that will be familiar to many of our pupils and comes from a line of working Labs. Ralph is very affectionate and loves fuss and attention. He also loves to play games and chase balls, however, his primary passion is eating!
